

# SHORT COURSES AND SUMMER SCHOOLS

Spending a short period of time in another country is the perfect way to increase awareness and understanding of the world while working towards academic, career, intercultural and personal growth.

Our Short Courses and Summer Schools offer an amazing opportunity to explore subjects from either a different perspective or in greater depth whilst working with students and/or staff from other institutions and various study levels. They are also the best way to enjoy an authentic taste of academic life at the University of Salford. Our programmes include lectures, seminars, hands-on activities, but also a variety of cultural activities and fun social events.

## What we offer

We offer bespoke packages that can be amended to suit your specific requirements and objectives. Our packages include the following:

- / Pre-arrival support from a Student Ambassador
- / Airport pick-up and drop-off
- / Welcome Reception and Welcome Pack
- / Tour of our campus and facilities
- / Accommodation
- / Full board catering
- / Use of our sports facilities
- / Trips with the International Society to popular tourist spots in the Greater Manchester area
- / Cultural visits relating to the area of interest
- / Closing ceremony and final award
- / Membership for the Salford Alumni community with access to events all around the world and to our online and mentoring platform

All our Summer Schools and Short Courses can be tailor-made and be focused on a specific area of interest or study.

# WHY CHOOSE THE UNIVERSITY OF SALFORD?

- / Salford is in the heart of Greater Manchester, with our main campus just 2km from Manchester city centre, a short walk from world-class music, sport, nightlife, food, shopping and culture;
- / Our University and the whole of Manchester offer you the opportunity to immerse yourself in a diverse and multicultural environment;
- / The campus is next door to Chapel Street, home to a growing number of independent outlets including veggie, Italian and Spanish restaurants;
- / You will be able to access our state-of-the-art facilities;
- / We have a long history of providing people with the tools they need to succeed and score highly in particular amongst our competitors in science, technology, engineering and mathematics.
